Subject: Microsoft Settlement

I don't have a ton of time to write a detailed message concerning all of the reasons for opposing the Microsoft settlement, all I can say is that it is in the best interest of all American's to look closely at the impact of this corporation on everything.

I am not advocating a solution. I am only saying that a better, more effective solution for diminishing the monopolistic powers of Microsoft can be found than the one currently on the table.

Sincerely,
Chris Pelsor
